

SCEPTRE POWER® Announces 18W & 24W Interchangeable & Fixed Prong Wall Plugs are UL60065 (Safety for Audio & Video) Certified with Efficiency Level VI

PXX Series Interchangeable Wall Plug

PS Series Fixed Prong Wall Plug

Placentia, CA February 11, 2016 –Sceptre Power announces its 24W and 18W PXX Series both Interchangeable & PS Series Fixed Prong Wall Plugs are certified to UL60065 Audio/Video effective March 1, 2016.

UL60065 is an Underwriters Lab's safety standard for Audio, Video and Similar Electronic Apparatus. It is intended to protect against fire, electric shock and injury. This standard primarily concerns with apparatus intended for household and similar general use. But it also covers COMMERCIAL APPARATUS and PROFESSIONAL APPARATUS which may also be used in places of public assembly such as schools, theatres and the workplace.

Both series are Energy Efficiency Level VI compliant with output voltages range 5VDC – 24VDC at 87.5% efficiency and no load power consumption of less than 0.1W. Combined with Universal AC input of 100-240VAC, the PXX series may use in North America, Europe, UK, Australia, Japan and China by changing the AC plug. The PS series comes with US/Canada, Europe, UK and Australia versions. Different types of DC connectors are available as well.

Equipped with short circuit, over-voltage, and over-current protection, the 18W & 24W Wall Plugs are suitable for audio, video, industrial and commercial applications. In addition, both series are also certified to UL60950/EN60950 ITE safety standards.
